THE PIONEER OF AMERICAN BLUE CHEESE

Maytag Dairy Farms continues a decades-long tradition producing handcrafted blue cheese in Newton, Iowa. In 1941, Frederick Maytag II, in conjunction with microbiologists at Iowa State University, set out to recreate the famous blue cheese made for hundreds of years in Europe. Since those first wheels of cheese were produced, Maytag Dairy Farms has grown and ships daily throughout the United States.

Time and a few simple, high-quality ingredients transform sweet, farm-fresh milk into premium blue cheese. Our cheese is crafted by expert cheesemakers, cave-ripened and aged within carefully monitored conditions to create a bloomy rind and beautiful blue veining. Each wheel is wrapped in our signature blue and silver foil.

Beyond our legendary Maytag Blue Cheese, our catalog showcases a variety of traditional cheeses with flavor profiles that range from creamy Havarti to sharp English-Style Cheddar. Premium, dry-cured meats and hot sauces are made by Iowa companies. Sweet and savory handcrafted jellies and preserves are curated from small, artisanal producers. Savory and sweet crackers and other condiments round out your gift packages.

Thank you for making Maytag Dairy Farms a part of your tradition. Knowing you look forward to our cheese year after year is what makes this season special for us. Whether using Maytag Dairy Farms cheese in recipes passed down for generations, or trying a new recipe from this catalog, thank you for making us a part of the experience you create around the table.

MAYTAG BLUE CHEESE COMPOUND BUTTER

Enjoy the rich and savory goodness of this Maytag Blue Cheese compound butter and add a gourmet touch to your favorite dishes with its distinct tangy and creamy flavor.

Ingredients:

- 1/2 cup unsalted butter, softened
- 1/4 cup Maytag Blue Cheese, crumbled
- 1 Tbsp fresh chives, finely chopped
- 1 tsp fresh lemon juice
- 1/2 tsp pepper
- Pinch salt

Instructions:

Place softened unsalted butter in a mixing bowl with the crumbled Maytag Blue Cheese.

Using a fork or a hand mixer on low speed, blend the butter and cheese until well combined. The mixture should be smooth and creamy.

Add the finely chopped fresh chives, fresh lemon juice, pepper, and a pinch of salt. Mix all the ingredients thoroughly to distribute flavors evenly.

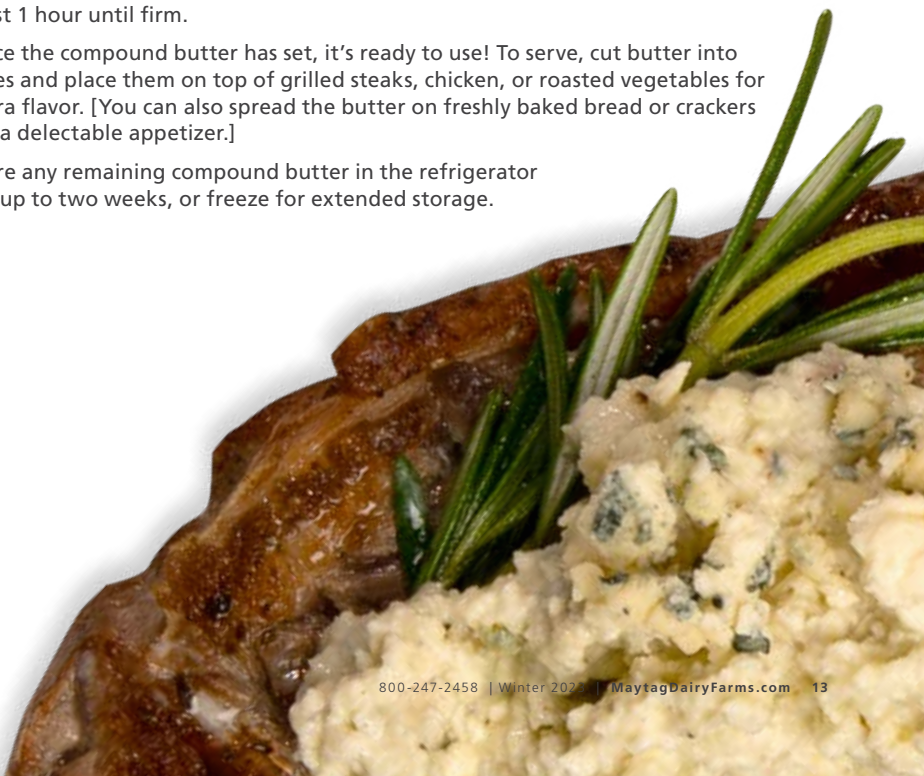

Lay a sheet of plastic wrap on a clean surface and transfer the compound butter mixture onto it.

Roll the butter into a log shape, using the plastic wrap to help shape and tightly enclose the butter.

To secure the log shape, twist the ends of the plastic wrap, and refrigerate for at least 1 hour until firm.

Once the compound butter has set, it's ready to use! To serve, cut butter into slices and place them on top of grilled steaks, chicken, or roasted vegetables for extra flavor. [You can also spread the butter on freshly baked bread or crackers for a delectable appetizer.]

Store any remaining compound butter in the refrigerator for up to two weeks, or freeze for extended storage.
